

ALCHEMY

Color-Coded Quick Reference

CRAFT TEST

Roll **Wit dice** against the TN listed for the character's **Alchemy rank**.

Success: 2+ successes are required to craft the potion.

Failure: If the test fails, the materials are destroyed.

POTION CREATION

The alchemist combines ingredients to purify and reinforce their properties. Up to **5 ingredients** may be combined.

When combined, an effect requires the same matching effect from **two different ingredients**. A third matching ingredient from a different source creates a triplet.

A **matching pair** creates the effect. A **matching triplet** increases the effect's duration by **2 rounds** or its potency by **1**.

Only matching effects from a pair or triplet can be added to the potion.

A potion has a maximum of **5 effect slots**.

RARITY	SLOTS	COMBINATION
Rare	3	Same effect from 2 different ingredients
Uncommon	2	Same effect from 2 different ingredients
Common	1	Same effect from 2 different ingredients
